Summary

Highly accomplished Computer Engineer with a robust background in embedded systems and real-time applications, coupled with extensive expertise in **financial and accounting software systems**. Seeking to leverage a unique blend of technical acumen and financial leadership into challenging roles within the banking, investment banking, stock exchange, and governmental financial sectors. As a Co-Founder and CFO of Golden Gateway Software Solutions Co., and Co-Founder & Co-Owner of Bizznass E-Commerce & Brokerage, demonstrating significant entrepreneurial drive, strategic financial oversight, and team leadership. My proficiency spans software system analysis, design, development, and project management, with a proven ability to interact effectively with diverse stakeholders. A proactive self-learner, adept at problem-solving and driving technical innovation within complex financial environments.

Education

University of Tripoli | 2014 - 2019 * Bachelor's Degree in Computer Engineering

Certifications & Publications

- **IEEE Publication:** Efficient RealTime OS for ARM MC (2021) - Demonstrates expertise in real-time system optimization, critical for high-frequency trading or real-time financial data processing.
- **EXPERTISE FRANCE:** Design & Implementation of Voting System Prototype based on Blockchain (2022) - Showcases innovation in secure, distributed ledger technologies, highly relevant for financial security and transaction systems.

Skills
